A step above...

Quality, Selection, & Designs

Design Details

50+ Patented and original collections plus industry standard designs in a wide variety of styles including Traditional, Transitional and Modern/Contemporary.

Heavier in Weight

Our designs have solid or flat backs, providing a comfortable feel in your hand.

Made from Quality Materials

Zinc/Zamak Alloy – A Zinc alloy that contains approximately 4% aluminum which provides excellent die castability and strength, resulting in a durable, corrosion-resistant product. Zinc is also a clean and recyclable material, making it eco-friendly.

Steel – durable and resistant to corrosion, providing a superior product.

Lifetime Warranty

Hardware Resources believes in quality, integrity and reliability by offering a lifetime warranty on all of our Jeffrey Alexander decorative hardware (see page 180).

Pull Escutcheons

P106-SB shown in use

1094SN shown in use

1094SN and PE03SN shown in use

Pull Escutcheons are a low profile transition from existing 3" CC holes to 96mm CC, or 4-1/4" CC to 128mm CC. Paired with our most popular cabinet pulls, they virtually disappear once installed. A second pair can be used on the inside of the cabinet door to cover the back of the original holes. Also works for 4-1/4" CC to 5" CC.

Display Boards

Designer Grey display boards

- Stylish design
- Multiple finishes displayed
- Black edge on grey
- Attractive metal logo
- Price code on each piece

Quickly select decorative hardware

The price code on our Designer Grey display boards under each piece, and a price code key on the tower edge or wall, make it fast and simple for your staff and your customer know the approximate price at a glance.

- Price code key available in a sticker for the tower (part number DISPLAY-KEY17) or as a printable PDF for framing.
- Prices on the printable price code key can be modified by you for your market
- Change prices each year by changing the price code key, not the display board
